## Facility Summary

The **Facility Summary** grid and map view allows the user to review the facility-level information in data and graphical views.

By clicking on **Map View > All Services > Facility Summary** from the main menu, the application will open the new grid containing facility summary information for various data points across the multiple Services.

**Inspection Summary** provides a snapshot view of current inspection activity along with links to the latest inspection engineering report for each Service; **Recommendation Summary** for High, Moderate and Low impact counts, including current recommendation response status for each applicable Service; **Facility Rating** section displays overall ratings; **Natural Hazard Summary** displays rating for Seismic, Flood and Wind; **Impairment Summary** displays breakout of impairment history, along with **Jurisdictional** details.

FACILITY SUMMARY
×

**File No.:** 1001.0005

**Client:** ABC Company (Demo)

**Client Loc. ID:** ABC0005

**Divisions:** Division A

**Facility:** Facility 5

**TIV (millions) USD** 0

**Address:** 28 Old Town Place

**City:** Los Angeles

**St/Prov.:** CA

**Country:** United States

**Postal Code:**

**Latitude:** 34.0533

**Longitude:** -118.2453

Tip! The above map is interactive and will open Bing Maps.
